Profile

Senior UX/UI and brand designer with more than 15 years in design and advertising. I started in graphic design, building identities, campaigns and event experiences, and grew into product design for healthcare, insurance, agriculture and professional education.

Since 2020 I've been a consultant at SDG (Solution Design Group), partnering with business leaders, product owners and developers to turn complicated workflows into tools people can use, to map the journeys and services around them, and to give teams design systems that keep products consistent. Bilingual in English and Spanish.

Highlights

- Mapped the registration journey and redesigned sign-up for Cargill's Aquí + Frescos food-shopping app, and designed myCargill, a self-serve customer portal
- Helped stand up a white-label design system for Cargill, with documentation, onboarding, town halls and office hours
- Led the design system team and project at ProAg, and contributed to its two-phase UX strategy, quoting research and research repository
- Documented a new wellness-program process in a service blueprint for Revo Health, and designed the EXCEL patient app
- Created the brand identity for Harris County Public Health, one of the largest public health departments in the US, and set brand standards across the organization
- Managed the Harris County Public Health website, serving 4.7 million residents
- Designed the attendee experience for recurring conferences, from visuals across print and digital to displays

Experience

Consultant
SDG (Solution Design Group), March 2020 to present

- **Cargill:** mapped the registration journey and redesigned sign-up for a Central American food-shopping app; designed the myCargill customer portal and its self-serve access request; shaped a sales cross-sell tool with reps and customers; helped stand up a global white-label design system, with town halls and office hours for its designers; built role-based Power BI reporting with global IT.
- **American National:** designed the direct-to-consumer annuity buying flow, from rate calculator to signed application.
- **ProAg:** led the design system team and project, from planning workshops and stakeholder interviews to the Figma library, documentation and onboarding; contributed to a two-phase UX strategy (interviews, "How might we" workshops, an agent archetype and survey, a phased roadmap), quoting research and the research repository.
- **HealthPartners:** designed three internal tools that replace spreadsheets and manual steps: specialty-pharmacy contracting (data model, journeys, accessible UI), a medication-optimization registry and member incentives.
- **Twin Cities Orthopedics / Revo Health:** interviewed stakeholders, mapped journeys, ran workflow workshops and documented the new process in a service blueprint; designed the EXCEL patient app and the Habits to Health campaigns.
- **Holmes Corporation:** heuristic analysis and redesign of micro-credential and assessment experiences; facilitated stakeholder workshops.
- **Partners in Excellence:** designed five role-based Power BI dashboard views spanning clinical, financial and HR data.
- **Human Powered Health, Component Assembly Systems:** app modernization and website redesign.
- **Intact Insurance, Manifold Public Design, Next Level Partners:** a broker account-setup and quote flow, and two websites.
